

cGroupElem: GetOrder

```
graph LR; A[cGroupElem: GetOrder] --> B[cGroupElem: Get.NthPower]; A --> C[cGroupElem: Get.identity];
```

A diagram showing a node on the left with a gray background, labeled "cGroupElem: GetOrder". Two blue arrows point from the right side of this node to two separate nodes on the right. The top node is labeled "cGroupElem: Get.NthPower" and the bottom node is labeled "cGroupElem: Get.identity". All nodes are rectangular with black borders.

cGroupElem: Get.NthPower

cGroupElem: Get.identity
